

The Virden Area Foundation is proud to present:

**Virden Area Wildlife Association Inc.
Eternal Springs Swinging Bridge**

Eternal Springs is a vibrant part of the community with walking paths, fishing ponds and picnic areas for everyone to enjoy. Numerous events are held every year such as archery events, yoga festivals and weddings.

After many years of steady use and general maintenance the swinging bridge needed to be completely rebuilt as well as some of the docks in the area. Volunteers look after the area and conduct all maintenance and construction when needed. This includes both individuals and businesses that volunteer their time and equipment.

In 2020 the Virden Area Foundation provided a grant of \$12,500 with assistance from the Endow Manitoba 150 Build project. The project was completed in early 2021.

The Virden Area Foundation is a charitable organization that brings together community-minded people to build a permanent endowment fund from which it supports community projects in the Virden area through the making of grants.
