

*The Virden Area Foundation is proud to present:*

## ***West Souris River Conservation District***

The West Souris River Conservation District was formed in 1995 and is based out of Reston MB. The mandate of the WSRCD is to provide soil and water management, wildlife conservation and environment education to the residents of south western Manitoba.

In 2018 the WSRCD identified a need for signs on the Virden Cross Country Ski Trail which is located just SE of Virden. The Ski trail was in need of a trail head sign to encourage people to use the trail as well as trail directions, distances, start and finish points and flora/ fauna found on the trail. The Virden Area Foundation was proud to grant \$1000 towards this project.

*The Virden Area Foundation is a charitable organization that brings together community-minded people to build a permanent endowment fund from which it supports community projects in the Virden area through the making of grants.*
