

The Virden Area Foundation is proud to present:

Virden Youth for Christ

Youth for Christ has adopted the vision of “creating a community of Hope, where no young person goes hungry; spiritually, emotionally, physically or relationally”. Their work in Virden centres around The Hideout, a youth drop in facility that offers supervised recreational activities.

In 2017 the Virden Youth for Christ was looking to build a 60' x 30' cement pad in the back of their facility on Seventh Avenue. The project was to include lighting and boards as well as recreational equipment – providing additional program opportunities such as street hockey and basketball. The Virden Area Foundation provided a grant of \$6000 to help make this project a reality for the Virden Youth for Christ and the Virden and Area youth.

The Virden Area Foundation is a charitable organization that brings together community-minded people to build a permanent endowment fund from which it supports community projects in the Virden area through the making of grants.
